► About Us

Ultra Care is an Egyptian-based manufacturer of high-quality In Vitro Diagnostic (IVD) reagents, committed to advancing clinical diagnostics through innovation and reliability. We are dedicated to designing, developing, and distributing diagnostic solutions that empower laboratories and healthcare professionals with fast, accurate, and cost-effective results. With cutting-edge facilities and a science-driven approach, we serve both local and international markets, delivering diagnostic kits that cover infectious diseases, cancer markers, autoimmune disorders, and biochemical testing needs.

► Our Vision & Mission

Results You Can Rely On.

Vision

To provide accurate, reliable, and affordable diagnostic solutions that support early diagnosis and better patient care. We are committed to innovation, strict quality standards, and close collaboration with healthcare professionals to meet evolving medical needs

Mission

To become a leading provider of innovative clinical IVD solutions that enhance patient outcomes, improve quality of life, and reduce healthcare costs.
Through continuous research and cutting-edge technology, we aim to shape the future of diagnostics and make a lasting impact on global healthcare.

► Our Values

Test with Confidence

Quality First

We are committed to delivering reliable, high-performance diagnostic products that meet international standards.

Customer Focused

We listen, support, and adapt to the needs of healthcare professionals and distributors.

Innovation Driven

We invest in continuous research and development to stay ahead of the curve in medical diagnostics.

Collaboration

We believe in teamwork internally and externally to achieve shared success.

Integrity & Trust

We operate with transparency and honesty, building lasting relationships with clients and partners.

Responsibility

We hold ourselves accountable for the safety, performance, and ethical impact of our solutions.

► Trusted by Labs, Chosen by Experts

High Quality

We manufacture our products to the highest quality standards, using the latest automated manufacturing equipment to ensure precision and efficiency. We strictly adhere to international regulations & standards, from the selection of raw materials to the final stages of production. To ensure excellence and innovation, we have a strong research & development (R&D) team that continually works to improve performance, increase durability & develop smart solutions that meet customer needs with the highest efficiency.

Fast Shipping & Dedicated Technical Support

We guarantee prompt delivery across all regions through a reliable logistics network. Our technical support team is always available to assist you, from installation and calibration to maintenance and troubleshooting.

Certified & Field Tested Products

All our devices undergo rigorous quality control processes and are certified to meet international standards. Each product is also field-tested to ensure performance accuracy, reliability, and safety.

Advanced Production Lines & Modern Technology

We invest in the latest manufacturing technologies and automated production lines, enabling us to maintain consistent quality, minimize human error, and ensure production scalability.

At Ultra Care

we are committed to delivering high-quality diagnostic solutions that combine innovation, accuracy, and usability. Our range of semi-automated coagulation analyzers is designed to meet the diverse needs of modern laboratories, ensuring precise results and efficient workflow.

IVD REAGENTS

Our IVD reagents are designed to deliver consistent, accurate, and reliable diagnostic results. Produced with strict quality control standards, they support a wide range of clinical tests and ensure optimal performance for laboratories of all sizes.
